# Nch Software Registration Key

[Download](#)

---

Enter your registration code by running the program, going to the "File" menu, selecting "Register Software", pasting your registration code into the dialog box, and... Show/Hide Text click the "Register" button to activate the software and start using it... Hide / show Installing a product key for programs using a USB key To obtain a product key in the software, enter the registration code in the installation window. Use the USB key to enter the key. Note. If you are using a USB key, after pressing [Next], you may see the message "Product key is not currently installed".
