Is there any way to do this? A: You could do this using a custom 403 error handler. Create the custom handler Add the handler to your global web.config. Create a page to use as a redirection target Configure the custom handler to redirect to the target global.asax.cs // Redirect to a custom error page for an unsuccessful login attempt. protected void Application_Start() { AreaRegistration.RegisterAllAreas(); RegisterRoutes(RouteTable.Routes); WebApiConfig.Register(GlobalConfiguration.Configuration); //Register a custom error handler var config = GlobalConfiguration.Configuration; config.UnhandledException += new UnhandledExceptionHandler(Application_UnhandledException); // Create a page to use as a redirect target. HttpContext.Current.Server.TransferRequest("/error/redirect"); } protected void Application_UnhandledException(object sender, ApplicationUnhandledExceptionEventArgs e) { // Log the error and redirect to the target. Log.Error("Error handling routine unhandled", e.ExceptionObject as Exception); HttpContext.Current.Server.TransferRequest("/error/redirect"); } Police: Fake 911 call leads to arrest for wearing sunglasses A man accused of wearing sunglasses while on parole at a Burger King in West Houston was arrested Thursday, according to police. Gilbert Negrete was charged with theft of property after an employee at the Burger King at 10200 Armington Rd. called police when he wasn't wearing his glasses, the Harris County Sheriff's Office said. Negrete was on parole from the Texas Department of Criminal Justice's Parole Division at the time of the incident, the sheriff's office said. It wasn't immediately clear why 4bc0debe42
