Taitei Although the world is huge, I can believe that there will be no boring dungeons. The map is randomly generated and you can't go anywhere without encountering enemies. The content is extremely rich and the settings are great. There are a lot of enemies that don't follow the typical RPG pattern but follow a biological system. Although some enemies will fall during combat, you will be able to revive your fallen allies from the real danger zone. Mint Even though the world is huge, it's easy to get around thanks to the isometric camera. There are a lot of enemies and the battle system is complex. There are also a lot of various animations and you can customize the graphics using the interface. You'll definitely want to battle! It's an ideal RPG for fighting games like BlazBlue.

Lupaworld With a large map, the battles are extremely lively and there are many enemies. The story and quests are well-developed and there are a lot of different

characters, so you're sure to have a lot of fun. There are some monsters that you can't choose from but you can't see a preview of the monsters. The visuals are nothing special but the content is intense so you have fun. A Song of Ice and Fire Master The new enemy system is very interesting. The battle system is extremely interesting and there are a lot of enemies. The story is more like a fantasy novel than a typical RPG story. The graphics and character designs are very beautiful and the style is unique. The graphics are good even with a standard definition TV. NEW FANTASY ACTION RPG.
